## **SCHEDULE 2 TO THE DESIGN AND DEVELOPMENT OVERLAY**

Shown on the planning scheme map as **DDO2**

### **LAKE BENALLA ENVIRONS RESIDENTIAL INTERFACE: MITCHELL AND ARUNDEL STREETS**

#### **1.0**

31/03/2011  
C13

#### **Design objectives**

- Encourage siting and design of new residential development that protects views and the integrity of Lake Benalla and environs.
- Encourage low scale development which is unobtrusive and will not have a detrimental impact visually or physically on the environs of Lake Benalla.
- Improve provision of walking trail access and viewpoints around Lake Benalla.
- Ensure protection and enhancement of views and vistas to Benalla Art Gallery, Benalla Botanical Gardens and road and rail bridges.
- Ensure landscaping and treeplanting within passive recreation areas protect views of Lake Benalla and significant buildings in the lake environs such as Benalla Art Galley.

#### **2.0**

#### **Buildings and works**

Any application for buildings or works should meet the following requirements:

- Siting and design of proposed development and redevelopment are to protect views and visual qualities of the lake environs.
- Proposed dwellings and alterations to dwellings are to be of mass, form and height that will not visually dominate the character and setting of the lake and environs.
- Building heights are low scale, unobtrusive and complement the setting, landscape, character, views and amenity of the lake and environs.
- If the proposed building exceeds one storey, whether the development satisfies the design objectives and would unduly impact on the visual amenity of the lake environs.
- Lot boundary fences abutting the lake reserve are to be of wire, post and rail construction, or similar open type construction.

An application for planning permit for buildings and/or works should be accompanied by plan/s and report that includes:

- How the proposal addresses and meets the requirements of this schedule.
- An assessment of urban design and landscape context of the site and adjoining land.
- Elevations of proposed buildings including fencing.
- Proposed building materials and finishes to external surfaces.
- Proposed landscaping, including species.
- Assessment of visual impact on lake environs.

#### **3.0**

#### Decision guidelines

Before deciding on an application to subdivide land, construct a building or carry out works, the responsible authority must consider the following:

- Whether the building design, mass, form and height is consistent with adjacent urban character and the landscape character and environmental integrity of the lake and its environs.
- Whether the proposal has regard to protection of important viewlines and vistas.
- Whether the proposal is consistent with the findings and recommendations of the *Lake Benalla Environs Study, 2007*.
- Comments of the Goulburn Broken Catchment Management Authority and Department of Sustainability and Environment, as appropriate.
- Comments of Benalla Rural City Council's Heritage Advisor in relation to development proposals adjacent to Heritage Overlay sites and areas.
