Objective 1

Plan, build, maintain and retire infrastructure to meet the needs of the municipality and its community.

Strategy

- Identify required infrastructure maintenance and provision and ensure service standards are maintained.
- Work with other agencies and the private sector to deliver priority projects.

Objective 2

Ensure that infrastructure requirements are provided in a timely manner to support development opportunities, economic growth and job creation in the municipality.

Strategy

- Encourage the provision of infrastructure in conjunction with new development.
- Ensure that development in established areas contributes to the provision of adequate infrastructure to service the requirements of a growing community.

Further strategic work

- Investigate the need for Development Contributions Plans to fund physical and community infrastructure associated with urban development.
