

19/10/2017
C100**SCHEDULE 5 TO CLAUSE 42.03 SIGNIFICANT LANDSCAPE OVERLAY**

Shown on the planning scheme map as **SLO5**.

FORMER G.K. TUCKER BROTHERHOOD OF ST. LAURENCE SETTLEMENT**1.0 Statement of nature and key elements of landscape**24/01/2013
C83

The site commonly known as the G.K. Tucker Brotherhood of St. Laurence Settlement contains a mixture of remnant indigenous vegetation and mature exotic trees and shrubs which make a significant contribution to the landscape quality and character of this area.

Areas of remanent indigenous vegetation have been identified on the site, this vegetation has environmental significant including providing habitat for indigenous fauna.

This land was established as low cost housing in the early 20th century by Gerard Kennedy Tucker founder of the Brotherhood of St. Lawrence. Trees that were planted as part of this development remain on the site today. These planted trees provide links to the former use of the site and as such are of historical landscape significance.

2.0 Landscape character objective to be achieved24/01/2013
C83

- To protect vegetation in the area with intrinsic landscape and historical or environmental values.
- To conserve and enhance remanent indigenous vegetation in the area.
- To ensure that development responds to and maintains the landscape quality of the GK Tucker Brotherhood of St. Laurence Settlement.

3.0 Permit requirement19/10/2017
C100

A permit is required:

- To remove, destroy or lop vegetation that is listed in Table 1 to this schedule.
- For buildings and works within the tree protection zone of any tree that is listed in Table 1 to this schedule.

A permit is not required:

- For buildings and works outside the tree protection zone of any tree listed in Table 1 to this schedule.
- To prune or lop limbs less than 75mm in diameter and not more than a total of 10% of the canopy of any significant tree listed in the table to this schedule for:
 - maintaining access to existing roads, driveways and footpaths;
 - clearing within two metres of an existing permanent structure;
 - maintaining of an existing specialised pruning method such as hedging, espalier or topiary;
 - reducing overhang to neighbouring properties.
 - To remove dead and broken limbs.

All pruning works must be carried out in accordance with Australian Standard AS4373-2009 Pruning of Amenity Trees.

Before deciding on an application to remove, destroy, prune or lop any specified tree or area of vegetation, the responsible authority may require the applicant to provide a report prepared by a qualified arborist, ecologist, or botanist on the reason and need for the proposed work, options for alternative treatments and any remedial or restorative action proposed.

4.0**Decision guidelines**24/01/2013
C83

Before deciding on an application to construct a building; construct or carry out works; or remove, destroy or lop any vegetation the responsible authority must consider:

- Whether the proposal has minimised any negative impacts on the valued landscape of the area.
- The reasons for removing any vegetation and the practicality of any alternative options which do not require removal of native vegetation in accordance with the Native Vegetation Framework.
