Purpose

The Glenelg Shire Municipal Strategic Statement (MSS) outlines the major directions for the future growth, development and management of land use for the Shire over the next 15 years. It has been prepared by Council to assist it, the community, businesses and government agencies by setting out the strategies and policies which form the basis for the preparation of the Shire's planning scheme, the administration of the scheme and specific actions Council will take.

The Statement encapsulates the broad goals of the Council within the context of the State Planning Policy Framework. The MSS will be reviewed on a three yearly basis.

The MSS focuses on the key land use planning and development issues relating to primary production, urban development, infrastructure provision and the environment. The MSS also explains the zone and overlay provisions that are required to implement and achieve the agreed vision and strategy.
