School Master Plan

A School Master Plan may be prepared in accordance with the purpose of the zone and to the satisfaction of the Responsible Authority.

The Master Plan must be advertised to adjoining landowners/occupiers, referred to relevant statutory authorities and publicly displayed at the municipal office for at least 14 days, with notice in a local newspaper circulating in the area. The Master Plan may be amended by the responsible authority, after further public notice and referral.

Any Master Plan must provide details on the following:

- Site plans at an appropriate scale showing the proposed location, type, indicative heights and proposed use of all buildings and works
- Details of any staging of the development, including any proposed subdivision
- Estimated number of students and staff associated with each stage of the development;
- Carparking for each stage of the development.
- Landscaping of the subject land.
- Access to the site (pedestrian and vehicular, including emergency service, staff and visitor vehicles).

The School Master Plan must also be accompanied by:

- a traffic impact assessment which addresses access to the site, carparking requirements and external traffic impacts and requirements; and
- a land contamination assessment which indicates that the land is suitable for a sensitive use and where contaminated land is identified, details of the remedial action required to be undertaken before the use commences; and
- a stormwater management plan detailing how stormwater will be collected and treated within the development, with particular emphasis on the removal of sediment, litter and urban waste from stormwater prior to its discharge into local watercourses, and demonstrating how that process will not impact adversely on the flood carrying capacity of any local watercourse.

Use of Land

Amenity of the neighbourhood

- A use must not adversely affect the amenity of the neighbourhood, including through the:
 - Transport of materials, good or commodities to or from the land.

- Appearance of any stored goods or materials.
- Emission of noise, artificial light, vibration, odour, fumes, smoke, vapour, steam, soot, ash, dust, waste water, waste products, grit or oil.

Application requirements

An application to use land must be accompanied by the following information:

- The purpose of the use and the types of activities which will be carried out.
- The proposed hours of operation.
- The potential off-site effects including noise levels, traffic, hours of operation and light spill.
- The effect of the proposed use on existing land use and service infrastructure.
- Access to the site (pedestrian and vehicular, including emergency service, staff and visitor vehicles).
- Proposed student and teacher numbers.
- Site plans at an appropriate scale showing the location of all buildings to be used.

Decision Guidelines

Before deciding on an application to use land, the responsible authority must, (notwithstanding any approved Master Plan) consider:

- The effect the proposed use may have on existing or future neighbouring uses of the surrounding area.
- The effect the existing or future neighbouring uses may have on the proposed use.
- The effect of any additional traffic on the operation, convenience and efficiency of existing roads.
- Whether any proposed use will adversely affect the ongoing operation and expansion of adjoining and nearby uses.
- Whether any proposed use will be adversely affected by activities on adjacent and nearby lands due to dust, noise, odour, use of chemicals and farm machinery.

Decision Guidelines

Before deciding on an application to use or subdivide land, construct a building or construct or carry out works, in addition to the decision guidelines in Clause 65, the responsible authority must consider, as appropriate:

- Any approved school master plan.
- The capability of the land to accommodate the proposed use or development.
- Whether the site is suitable for the use or development and the compatibility of the proposal with adjoining land uses
- The need to minimise any adverse impacts of siting, design, height, bulk, and colours and materials to be used, on landscape features, major roads and vistas.
- Whether use or development protects and enhances the environmental and landscape qualities of the site and its surrounds.
- The effect any proposed subdivision will have on the potential of the land to accommodate existing and future uses in accordance with the purpose of the zone and the approved School Master Plan.

- The movement of pedestrians and cyclists, supplies vehicles, waste removal, emergency service and public transport.
- The provision of car parking.
- The availability of and connection to services.
