#### **Buildings and works**

13/09/2012  
C67(Part 1)

A permit is required to construct a front fence with a height greater than 1200mm.

Construction of buildings and works, including front fencing, must meet the following requirements:

- Built form must respond to the prevailing character of surrounding buildings including materials, colours, heights, bulk and setbacks.
- Existing mature Oak and Elm trees on Station Road must be protected.
- Landscaping and plant selection must protect existing vegetation where possible, integrate with the existing landscape character of the area and complement the period architecture of the street.
- Front street setback areas must be of an adequate size and shape to provide for canopy trees.
- Front fencing must be of an open-style and of light weight material to present an attractive image to the street that does not dominate as a solid wall.

#### **Decision guidelines**

13/09/2012  
C67(Part 1)

Before deciding on any application, the responsible authority must consider:

- The objectives and requirements of the *Gisborne/New Gisborne Outline Development Plan, Revised Final Report, September 2009*.
- The recommendations of the *Station Road, New Gisborne, Streetscape Study and Report, 1988*.
- The existing character of the area.
- Whether the siting, height, bulk and appearance of the proposed buildings and works, including fencing, will be in keeping with the heritage character and established village appearance of the area.
- The selection of building materials, colours and finishes.
- Whether the development provides for the retention of existing vegetation and the planting of canopy vegetation.
