**Policy Basis**

The MSS highlights the importance of the WHEA in providing a buffer zone for the World Heritage Listed Royal Exhibition Building and Carlton Gardens. The WHEA provides a setting and context of significant historic character for the World Heritage property.

---

**Objectives**

- To protect significant views and vistas to the Royal Exhibition Building and Carlton Gardens.
- To maintain and conserve the significant historic character (built form and landscapes) of the area.
- To ensure new development in the area has regard to the prominence and visibility of the Royal Exhibition Building and Carlton Gardens.

---

**Policy**

It is policy to:
- retain and conserve individually significant and contributory places, including contributory fabric, form, architectural features and settings, to assist with maintaining the heritage character of the setting and context of the Royal Exhibition Building and Carlton Gardens.

- retain and conserve the valued heritage character of streetscapes to assist with maintaining the heritage character of the setting and context of the Royal Exhibition Building and Carlton Gardens.

- retain the predominantly lower scale form of development which provides a contrast to the dominant scale and form of the Royal Exhibition Building.

- avoid consolidation of allotments in residential areas which will result in the loss of evidence of typical nineteenth century subdivision and allotment patterns.

- protect direct views and vistas to the Royal Exhibition Building and Carlton Gardens from bordering/abutting streets and other views and vistas to the dome available from streets within the precinct including Queensberry Street, the north ends of Spring and Exhibition Streets, and the east end of Latrobe Street.

- discourage the introduction and proliferation of permanent structures and items such as shelters, signage (other than for historic interpretation purposes), kiosks and the like around the perimeter of the Royal Exhibition Building and Carlton Gardens in order to:
  - avoid impacts on the presentation of the Royal Exhibition Building and Carlton Gardens, including impacts on axial views along treed allees and avenues; and
  - minimise inappropriate visual clutter around the perimeter of the Royal Exhibition Building and Carlton Gardens.
