VC37**2.1****Building height**19/01/2006
VC37

Buildings or works should not exceed the maximum building height specified in the table to this schedule.

An application to exceed the maximum building height must be accompanied by a site analysis plan and a written urban context report documenting how the development will achieve the specific design objectives and outcomes of this schedule.

The height of a building or works is the height of its highest point above the permanent footpath at the centre of the site frontage. If there is no footpath, the natural surface level at the centre of the site frontage is the base level.
