- To maintain the predominant low scale nature of the area.
- To ensure that development retains views to significant landmarks.
- To ensure development supports high levels of pedestrian amenity related to access to sunlight and sky views and a pedestrian friendly scale.

**2.0 Buildings and works**19/01/2006  
VC37

An application must be accompanied by a site analysis and urban context report which demonstrates how the proposed building or works achieve each of the Design Objectives and Built Form Outcomes of this schedule, and any local planning policy requirements.

A permit cannot be granted to vary the Maximum Building Height.

A permit may be granted to replace or alter a building or works existing at the approval date but which do not comply with the Maximum Building Height specified in the table, only if the responsible authority is satisfied an increased height improves the amenity and enhances the urban character of the area.

Building height is the vertical distance between the footpath or natural surface level at the centre of the site frontage and the highest point of the building, with the exception of architectural features and building services.
