SCHEDULE 33 TO THE DESIGN AND DEVELOPMENT OVERLAY

Shown on the planning scheme map as DDO33.

CBD FRINGE

1.0

Design Objectives

- To provide a transition between the taller built form of the central city and the lower scale built form of West Melbourne
- To maintain the heritage characteristics of the area by ensuring new development respects the scale of, and provides a transition to, adjoining heritage buildings.
- To ensure development limits impact on the amenity and outlook from Flagstaff Gardens.

2.0

Buildings and works

A permit may be granted to vary any Maximum Building Height, Podium Height or Minimum Building Setback specified in the table to this schedule.

An application must be accompanied by a site analysis and urban context report which demonstrates how the proposed building or works achieves each of the Design Objectives and Built Form Outcomes of this schedule and any local planning policy requirements.

Building height is the vertical distance between the footpath or natural surface level at the centre of the site frontage and the highest point of the building, with the exception of architectural features and building services.

Decision Guidelines

Before deciding on an application for a site adjoining a Heritage Overlay, the responsible authority must consider, as appropriate:

- Whether the height of any new development or the height of its podium will adversely effect the heritage significance of any adjoining heritage building, including the grading of the building as listed in the Heritage Places Inventory 2002.

4.0

Subdivision

A permit is not required to subdivide land.
