

29/02/2016
GC41**SCHEDULE 65 TO THE DESIGN AND DEVELOPMENT OVERLAY**

Shown on the planning scheme map as **DDO65**.

HOSPITAL EMERGENCY MEDICAL SERVICES HELICOPTER FLIGHT PATH PROTECTION (INNER AREA)**1.0****Design objectives**29/02/2016
GC41

To ensure that the height of new buildings and works do not encroach on the flight path areas associated with Hospital helicopter landing sites.

To ensure that the height of new development avoids creating a hazard to aircraft using Hospital helicopter landing sites.

To facilitate safe emergency medical service helicopter operations.

2.0**Buildings and works**29/02/2016
GC41

A permit is not required to construct a building or to construct or carry out works, including for any construction equipment associated with the buildings and works with a height less than the referral height of the Hospital helicopter landing site as specified in Table 1. This does not apply to the construction of a stack, vent, chimney, cooling tower or the like, of any height, that may produce an exhaust plume which has an upward vertical velocity of 4.3 metres or more per second at the point of emission/exit.

Table 1: Helicopter Landing Site Elevations

Helicopter landing site	Helipad Height (AHD)	Referral Height (AHD)
Alfred Hospital	15.7 metres	15.7 metres
Royal Childrens Hospital	62.4 metres	62.4 metres
Royal Melbourne Hospital	67.3 metres	67.3 metres

A permit is not required for additions and alterations to an existing dwelling that exceeds the heights specified in Table 1 provided:

- The additions and alterations are to the existing dwelling or outbuildings that do not exceed the existing height of the building (measured at the apex of the roofline), and
- The lot does not immediately adjoin the hospital land

A permit is not required to construct a fence, pergola, and ancillary structures for an existing dwelling provided:

- The structure does not exceed the height of the existing dwelling (measured at the apex of the roofline) and
- The lot does not immediately adjoin the hospital land.

A permit is not required to construct a building or to construct or carry out works, including for any construction equipment associated with the buildings and works within the Public Use Zone 3.

Despite exemption(s) provided in any other part of this scheme, for the purposes of this clause, buildings and works include radio masts, antennae, telecommunications tower, flagpoles, cranes and any construction equipment associated with the buildings and works.

3.0 Subdivision

29/02/2016
GC41

A permit is not required to subdivide land.

4.0 Referral of applications

29/02/2016
GC41

An application must be referred in accordance with Section 55 of the Act to the referral authority specified in Clause 66.04 or a schedule to that clause.

5.0 Application requirements

29/02/2016
GC41

A planning permit application must include the following information (prepared by a suitably qualified person):

- The location and topography of the subject land in relation to the helicopter landing site.
- The location and height of the main features on the subject land, including existing buildings, structures, trees or any other tall features.
- The proposed buildings and works on the land including details of the maximum height of the proposed buildings, works and construction equipment measured relative to the height of the helipad (AHD).

6.0 Exemption from notice and appeal

29/02/2016
GC41

An application is exempt from notice requirements of section 52(1) (a), (b) and (d), the decision requirements of section 64(1), (2) and (3) and the review rights of section 82(1) of the Act.

7.0 Decision guidelines

29/02/2016
GC41

Before deciding on an application, the responsible authority must consider:

- Whether the height and design of any proposed buildings or works will have an impact on the flight paths associated with the helicopter landing sites at Alfred Hospital, Royal Childrens Hospital and Royal Melbourne Hospital.
- The views of the Department of Health and Human Services (Vic).
