Note: Should a development proposal technically fall outside of the Residential, Business and Industrial classifications used in this DCP, Surf Coast Shire Council shall determine the most appropriate development charge to be used for the development. Such developments may require a case-by-case assessment of the number of demand units that they represent. This assessment may occur at the time a planning permit is applied for, or at the time a building permit is registered with the Council.

The development infrastructure contribution amounts are current as at 30 June 2012. They will be adjusted at least annually to cover inflation, by applying: Building Price Index for Melbourne in Rawlinsons Australian Construction Handbook. A list showing the current contribution amounts will be held at Council's Planning Department.

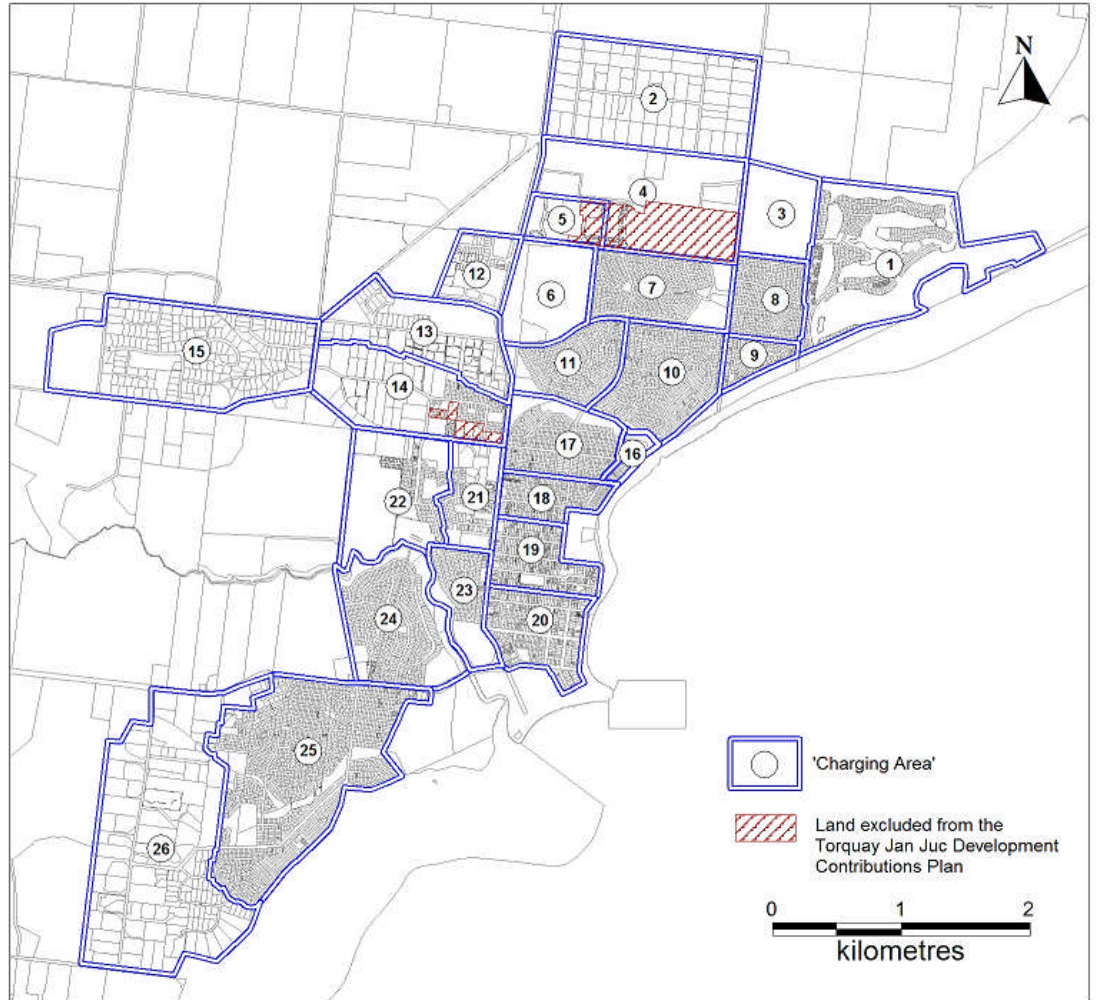

The Community Infrastructure Levy (CIL) payable under this Development Contributions Plan (DCP)

Section 46L of the *Planning and Environment Act 1987* sets the maximum CIL amount that can be collected under an approved DCP

If the maximum amount of the CIL which may be collected under an approved DCP is varied under section 46L of the *Planning and Environment Act 1987*, the collecting agency may adjust the amount of the CIL payable under this DCP in accordance with section 46L of the *Planning and Environment Act 1987*.

If the collecting agency adjusts the amount of the CIL payment under this DCP, the collecting agency will publish the adjusted amount of the CIL payable under this DCP on its website.
