SCHEDULE 1 TO THE DEVELOPMENT PLAN OVERLAY

Shown on the planning scheme map as DPO1

GENERAL RESIDENTIAL ZONE

Requirement before a permit is granted

A development plan is required to be submitted with a planning permit application or before a planning permit is granted to subdivide land into two or more lots.

Conditions and requirements for permits

- All residential development must be serviced with reticulated water and sewerage infrastructure and underground reticulated electricity.
- All residential development must be serviced with sealed roads and underground stormwater drainage.

A permit may be granted for a dwelling house on an existing allotment of land, where no other dwellings exist on the lot and where the dwelling will be connected to reticulated water and sewerage services, without the need for preparation of a development plan.

Requirements for development plan

A Development Plan must:

- Describe the relationship of uses proposed on the land to existing and proposed uses on adjoining land and identify any proposed buffer areas to separate them.
- Identify any sites of conservation, heritage or archaeological significance and the means by which they will be managed.
- Provide appropriate arrangements for the provision and funding of necessary physical and social infrastructure.
- Identify the staging and anticipated timing of development.
- Provide an overall scheme of landscaping and any necessary arrangements for the preservation or regeneration of existing vegetation.
- Provide suitable linkages between the site using road, bicycle and pedestrian transport facilities to urban areas.
- Provide a Soil and Water Management Plan (SWMP) to demonstrate the capacity of infrastructure to service the development, treat and retard stormwater, and reduce any impacts on soil and water downstream of the proposed development. Reference must be made to the publication – *Soil and Water Management Guidelines for Subdivision*, publication prepared jointly by Albury, Hume and Wodonga Councils, undated.
