DETAILED DESIGN

54.06-1

19/01/2006
VC37

Design detail objective

To encourage design detail that respects the existing or preferred neighbourhood character.

Standard A19

The design of buildings, including:

- Facade articulation and detailing,
- Window and door proportions,
- Roof form, and
- Verandahs, eaves and parapets,

should respect the existing or preferred neighbourhood character.

Garages and carports should be visually compatible with the development and the existing or preferred neighbourhood character.

Decision guidelines

Before deciding on an application, the responsible authority must consider:

- Any relevant neighbourhood character objective, policy or statement set out in this scheme.
- The design response.
- The effect on the visual bulk of the building and whether this is acceptable in the neighbourhood setting.
- Whether the design is innovative and of a high architectural standard.

Front fences objective

To encourage front fence design that respects the existing or preferred neighbourhood character.

Standard A20

The design of front fences should complement the design of the dwelling and any front fences on adjoining properties.

A front fence within 3 metres of a street should not exceed:

- The maximum height specified in a schedule to the zone, or
- If no maximum height is specified in a schedule to the zone, the maximum height specified in Table A2.

Table A2 Maximum front fence height

Street context	Maximum front fence height
Streets in a Road Zone, Category 1	2 metres
Other streets	1.5 metres

Decision guidelines

Before deciding on an application, the responsible authority must consider:

- Any relevant neighbourhood character objective, policy or statement set out in this scheme.
- The design response.
- The setback, height and appearance of front fences on adjacent properties.
- The extent to which slope and retaining walls reduce the effective height of the front fence.
- Whether the fence is needed to minimise noise intrusion.
