**Neighbourhood character objectives**
To ensure that the design respects the existing neighbourhood character or contributes to a preferred neighbourhood character.
To ensure that development responds to the features of the site and the surrounding area.

**Standard B1**
The design response must be appropriate to the neighbourhood and the site.
The proposed design must respect the existing or preferred neighbourhood character and respond to the features of the site.

**Decision guidelines**
Before deciding on an application, the responsible authority must consider:
- Any relevant neighbourhood character objective, policy or statement set out in this scheme.
- The neighbourhood and site description.
- The design response.

**Residential policy objectives**
To ensure that residential development is provided in accordance with any policy for housing in the Municipal Panning Strategy and the Planning Policy Framework.
To support medium densities in areas where development can take advantage of public transport and community infrastructure and services.

**Standard B2**
An application must be accompanied by a written statement to the satisfaction of the responsible authority that describes how the development is consistent with any relevant policy for housing in the Municipal Planning Strategy and the Planning Policy Framework.

**Decision guidelines**
Before deciding on an application, the responsible authority must consider:
- The design response.

**Dwelling diversity objective**
To encourage a range of dwelling sizes and types in developments of ten or more dwellings.

**Standard B3**
Developments of ten or more dwellings should provide a range of dwelling sizes and types, including:
- Dwellings with a different number of bedrooms.
- At least one dwelling that contains a kitchen, bath or shower, and a toilet and wash basin at ground floor level.

**Infrastructure objectives**
To ensure development is provided with appropriate utility services and infrastructure.
To ensure development does not unreasonably overload the capacity of utility services and infrastructure.

**Standard B4**

Development should be connected to reticulated services, including reticulated sewerage, drainage, electricity and gas, if available.

Development should not unreasonably exceed the capacity of utility services and infrastructure, including reticulated services and roads.

In areas where utility services or infrastructure have little or no spare capacity, developments should provide for the upgrading of or mitigation of the impact on services or infrastructure.

**Decision guidelines**

Before deciding on an application, the responsible authority must consider:

- The capacity of the existing infrastructure.
- In the absence of reticulated sewerage, the capacity of the development to treat and retain all wastewater in accordance with the State Environment Protection Policy (Waters of Victoria) under the *Environment Protection Act 1970*.
- If the drainage system has little or no spare capacity, the capacity of the development to provide for stormwater drainage mitigation or upgrading of the local drainage system.

**Integration with the street objective**

To integrate the layout of development with the street.

**Standard B5**

Developments should provide adequate vehicle and pedestrian links that maintain or enhance local accessibility.

Development should be oriented to front existing and proposed streets.

High fencing in front of dwellings should be avoided if practicable.

Development next to existing public open space should be laid out to complement the open space.

**Decision guidelines**

Before deciding on an application, the responsible authority must consider:

- Any relevant neighbourhood character objective, policy or statement set out in this scheme.
- The design response.
