Schedule to this clause

The schedule to this clause lists the classes of local VicSmart application. A class of application specified must not be a class of State VicSmart application specified in Clause 92 of this scheme.

The classes of local VicSmart application are listed in three tables:

- Table 1 lists the classes of local VicSmart application under a zone.
- Table 2 lists the classes of local VicSmart application under an overlay.
- Table 3 lists the classes of local VicSmart application under a particular provision.

Each table in the schedule is divided into four columns:

- Column 1 specifies the name or class of zone or overlay or name of particular provision.
- Column 2 specifies the development.
- Column 3 lists the provision of the scheme that contains the permit requirement applicable to the development.
- Column 4 specifies the information requirements and decision guidelines in Clause 93 or the schedule to Clause 95 applicable to the class of local VicSmart application.

A class of local VicSmart application means a development specified in Column 2 of the table that requires a permit under a provision listed in Column 3 of the table.
