STRATEGIC DIRECTIONS

Strategic directions for the municipality implement the State Planning Policy Framework and Council's vision for the municipality. Identified strategies outline how to achieve the future land use and development directions for the municipality and may also include further implementation measures to achieve these directions.

Strategic directions are grouped under the following seven main issues. These issues are also reflected in the *Rural City of Wangaratta Council Plan 2004 – 2008* and the *Wangaratta Community Vision – Shaping our future*:

- Rural land use and agriculture
- Urban development and Central Activities Area
- Rural townships and settlements
- Industry and business
- Economic development and tourism
- Environmental management and heritage
- Infrastructure and community

WANGARATTA RURAL CITY FRAMEWORK PLAN
