3.0

Maximum building height requirement for a dwelling or residential building

A building used as a dwelling or residential building must not exceed a height of 10.5 metres, unless the slope of the natural ground level at any cross section wider than 8 metres of the site of the building is 2.5 degrees or more, in which case it must not exceed a height of 11.5 metres.

This does not apply to:

- An extension of an existing building that exceeds the specified building height provided that the extension does not exceed the existing building height.
- An extension of an existing building or the construction of a new building that exceeds the specified building height which does not exceed the height of immediately adjacent buildings facing the same street.
- The rebuilding of a lawful building or works which have been damaged or destroyed.
- A building which exceeds the specified building height for which a valid building permit was in effect prior to the introduction of this provision.

A lift overrun may exceed the abovementioned mandatory height requirements by no more than 1.5 metres.

4.0

Application requirements

None specified
Decision guidelines

The following decision guidelines apply to an application for a permit under Clause 32.08, in addition to those specified in Clause 32.08 and elsewhere in the scheme:

- Whether a loss of amenity would result in varying the requirements of part 2.0 of this schedule.
- The amenity impact on surrounding land uses.
- Whether opportunities exist to avoid a building being visually obtrusive through the use of alternative building designs, particularly for developments with overall building heights in excess of 11.5 metres.
- Whether subdivision will result in development which is not in keeping with the character and appearance of adjacent buildings, the streetscape or the area.
- The layout and appearance of areas set aside for car parking, access and egress, loading and unloading and the location of any proposed off street car parking.

Transitional provisions

Schedule 1 to Clause 32.08 to the General Residential Zone does not apply to an application to construct a dwelling or residential building made before the approval date of the planning scheme amendment that introduced this schedule into the planning scheme. The requirements of Clause 54 as they apply to Clause 54.03-2 or of Clause 55 as they apply to Clause 55.03-2 as in force immediately before the said approved date continue to apply.

Despite the provisions of Schedule 1 to Clause 32.08, these do not apply to an application under section 69 of the Act to extend a permit to construct or extend a development.
