Sequencing of development

Objective

To manage the sequence of development in areas of growth so that services are available from early in the life of new communities.

Strategies

Define preferred development sequences in areas of growth to better coordinate infrastructure planning and funding.

Ensure that new land is released in areas of growth in a timely fashion to facilitate coordinated and cost-efficient provision of local and regional infrastructure.

Require new development to make a financial contribution to the provision of infrastructure such as community facilities, public transport and roads.

Improve the coordination and timing of infrastructure and service delivery in areas of growth.

Support opportunities to co-locate facilities.

Ensure that planning for water supply, sewerage and drainage works receives high priority in early planning for areas of growth.
